

WINNING WITH WEANERS

LIFTING THE LIFETIME PERFORMANCE OF YOUNG MERINO SHEEP

WORKSHOP INVITATION

ABOUT THE WORKSHOP

- Learn about the short, medium and long term impacts of poor weaner management on flock productivity.
- Develop a weaner management plan for your weaners, including setting a target weaning weight, target weights at key times, and feeding options.
- This practical workshop will help you identify key management strategies that will assist you in improving the performance of your Merino weaners, thereby optimising their performance in your flock for their lifetime.
- Discuss practical early weaning, containment feeding and develop feed budgets and plans for the coming season.
- NOTE - This event will meet NSW Govt COVID-19 requirements. **Therefore, RSVP ESSENTIAL, no registrations taken on the day, workshop numbers capped to comply with regulations.**
